

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A computer user interface comprising:

- a plurality of user interface document pages;
- a plurality of user content document pages;
- a unified navigational context for allowing a user to interface with both the user interface document pages and the user content document pages in a one space model;
- at least one of the document pages including at least one link; and
- at least one of the links linking to command code such that when one of the links linking to the command code is activated, the command code linked to the activated link is executed.

Claim 2 (original): The computer user interface of claim 1 further comprising:

- a Guide Book including a plurality of command descriptions and a plurality of links that are active command instances, the active command instances being invocable ~~in place~~ from within the Guide Book.

Claim 3 (currently amended): A computer user interface for displaying user content documents having links, the user interface comprising:

- a plurality of user interface documents having links; and
- a unified navigational context for allowing a user to interact with both the user interface documents and the user content documents in a ~~unified way~~ one space model by activating the user interface document links and the user content document links.

Claim 4 (currently amended): A computer user interface comprising:

- a plurality of user interface document pages;
- a plurality of user content document pages;
- a unified navigational context for allowing a user to interface with both the user interface document pages and the user content document pages in a one space model;
- at least one of the document pages including at least one link; and
- a ~~flexible~~ selection model for allowing a user to select ~~the~~ an object of a command either before or after the user selects the command.

Claim 5 (currently amended): A computer readable medium having computer-executable instructions for performing the step of:

- providing a computer user interface wherein a user
 - accesses user content documents,
 - accesses user interface help information, and
 - executes commands

Appl. No. 09/456,249
Amdt. Dated June 30, 2003
Reply to non-final Office Action of March 31, 2003

by activating links on documents pages and wherein user content documents and user interface documents are presented in a ~~single-viewing frame~~one space model. |
